

## FIRST LAW OF PRINTING

The amount of filler in the cartridge is inversely proportional to both the size and the urgency of a printing job.

## SECOND LAW OF PRINTING

A document that was sent to a printer by mistake will be printed at least twice.

## PRINTING CONTRAPOSITIVE

If a printer does not jam then the paper is not loaded.

## 3D LAW OF PRINTING

Useful shapes are not printable.

Printable shapes are against the law.

Legal shapes are not useful.
